Calgary, AB**

Phone: (403) 264-8928 Fax: (403) 265-8928

The Company's Calgary office was established in 2004, and relocated in early March, 2010 to a 1,200 sq. ft. office space located in the city's downtown area, the hub of the oil and gas industry in Alberta.

The Calgary office is the center of operations for Rocco Romano, the company's Sales Manager.

A former CFL player with the Calgary Stampeders, and Football Hall of Fame inductee, Rocco is widely recognized across the province and the energy services industry, and well versed in public relations. With a long history of giving back to the community, Rocco has (among other activities) lent his name to the annual Rocco Romano Celebrity Golf Tournament, which supports various organizations such as Variety – The Children's Charity and The Calgary Health Trust Neonatal Intensive Care Unit. CES is proud to have assisted Rocco through Gold Sponsorship for the past 5 years.

While his work does cover the entire CES footprint

across Saskatchewan, Alberta, B.C. and Manitoba, and require him on occasion to visit CES locations or client jobsites, the majority of Rocco's time is spent in Calgary.

In his mandate as Sales Manager with the Company, Rocco's main emphasis is on client relations and sales. He maintains a consistent relationship with existing clients, reviewing their current programs working with CES, and discussing forecasting on upcoming programs throughout the calendar year.

Rocco also meets and visits EPC companies, which are contracted by oil & gas companies to engineer programs for tendering, and solicits new customers for the Company, introducing Carson Energy Services and its capabilities to potential clients.

The Company is pleased to have Rocco organize and host various large and small client appreciation events, including the annual Client Christmas Reception in December, and the corporate Calgary Stampede barbeque/rodeo event.

To discuss how Carson Energy Services can play an integral role in your upcoming projects, please contact:
