www.carsonenergyservices.com

The Halbrite location of Carson Energy Services is located along Highway 39 in the province's southeast.

Areas of work which the Halbrite office engages in include:

- Flowline gathering systems
- Skid & large facility fabrication
- Shop & field welding
- Pressure welding
- Large facilities
- Field & shop facilities fabrication
- Vessel fabrication and repair
- Daily crew maintenance work
- Picker truck work
- Sand & gravel hauling
- Heavy hauling
- Site prep
- Civil work
- Iron work
- Environmental
- Self-framed building erection
- Safety sales & service
- Safety training
- QC/QA

Pile driving, hydrovacs, welders, and a flameless heater are among the inventory of specialized equipment available at this location.

The Halbrite facility includes two shops which provide a combined 33,000 square feet of space. Between 50 and 80 employees work from Halbrite, depending on the type and number of projects undertaken at any time.

As part of its commitment to leadership in the energy services industry, CES recognizes the importance of safety, health and environmental training. All CES locations provide comprehensive education to all personnel. CES' quality management programs are registered in Alberta, Saskatchewan, B.C. and Manitoba, ensuring the best in services and products for clients. Our personnel are trained and qualified to meet the challenges and requirements of a wide array of construction projects.
