

LAMPMAN HEAD OFFICE

Box 160, Lampman, SK S0C 1N0
Phone: (306) 487-2281 Fax: (306) 487-3235

The Lampman location of Carson Energy Services is both the head and heart of the company.

Our main location employs approximately 320 people, who work within or based from the seven shops and corporate head office.

As well as the office facility, which houses all of the southeast Saskatchewan and corporate managerial staff and financial functions, the site has one welding shop, a mechanic's shop, two truck shops, an equipment storage building, a safety shop, and picker shop, as well as a wash bay. All of these facilities are distributed throughout three yards.

Our Safety Sales & Services division, Environmental division, Safety, IT and Quality Control/Quality Assurance departments are headquartered in Lampman and assist all other locations.

www.carsonenergyservices.com

Work based out of this location includes mainline pipeline work, installation and maintenance on flowline gathering systems, skid fabrication, facility work, field and shop facility fabrication, daily crew oilfield maintenance work, picker truck work, heavy equipment hauling, backhoes, steamers, blasters, hydrovac, painting, and sand and gravel hauling, and Q.C. consultation.

Site prep and civil work, road boring, iron work, horizontal directional drilling,

environmental and remediation services, safety sales and servicing, and safety training are additional services offered to clients from the Lampman location.
